**Exchange 20.7 Tuesday June 30, 2020 12-1 PM**

**Bid Online or On The Phone [www.kreegerdairy.com](http://www.kreegerdairy.com)**

Open heifers will be sold in groups with the same terms as all of the Kreeger and Associates online exchanges.

Baby calves will be sold on pre-born agreements or the calves will be offered before they are born and will be sold by the farm for the delivery weeks and dates listed in the catalog. The estimated number of calves will be listed for each dairy along with the genetic information, calving protocols, general herd facts and pictures of the calving facilities, and other important information on the calves and the dairy. This is basically selling the calves direct off the farm each week but with the online auction for price discovery and buyer determination. The calves are direct farm calves and will vary in size and quantity for each delivery is an estimate and will vary.

#### **Pre-Born Calf Information**

##### Sellers

1. Sell the coming months calves on the exchange. Listin EX: The first exchange was February 7, so you will be offering the calves that are born in the March on the exchange. You can sell further out than one month if you chose to.
2. We will split the delivery agreements per your current schedule and have an estimated number of calves based off your projected calving's and the number of heifer calves you want to sell on each week. When your listings are submitted include genetics, and other programs your calves are eligible for, and current management practices.
3. On each delivery day the number of calves shipped along with RFID tag numbers and other information on each calf shall be sent to KCALF for processing and payment will be processed the following Monday.
4. Sellers agrees to allow random IGG tests to be performed on calves at KCALF's expense.
5. The seller must maintain a quality calf care program with good colostrum management, dip all navels with iodine and keep the calves in clean dry facilities until delivery is made.
6. Calves must be healthy and avg or above avg. size. Small, young, and unhealthy calves will be sorted off and left at your dairy.
7. Calves are sold FOB at the farm. If interstate papers are required they will be provided, but at the buyers expense.

##### Buyers

1. You place bids with a on the exchange for the specific contracts you want. Bidding can be done over the phone with one of the sale team or online at [www.kreegerdairy.com](http://www.kreegerdairy.com). This allows you to buy the desired number you want from the desired dairies and genetic makeup of the calves. It also allows you to have them delivered when you want them.
2. Delivery details will organized through KCALF. You can pick your own up or we can arrange for delivery.
3. At the conclusion of the sale we may require a 25% per calf down payment and signing of the pre born agreement to hold the agreements, Each week a invoice will be sent on Monday from the previous weeks delivery and payment is due on receipt. Failure to pay for a current invoice within 7 days will void the balance of your contracts.
4. If the calves are not the quality you expect, then you do not have to take delivery of them, But this must be determined before they leave the farm. Once they are loaded they are your property and full payment is due.
5. The actual numbered delivered may vary (More or Less) from the estimated number in the agreement.
