PRE-BIDDING OPTION. You can place bids on any lot before the auction starts, this is especially helpful if you will not be available on the day of the auction, or on a big sale that you want to place your bid prior to sale as you are viewing the lots. Bids placed are not displayed on the auction site until the auction opens. Although there may actually be pre-bids placed on a lot, The lot status will show # of bids placed as 0 and the current bid (required bid) will show as the opening bid. You place a pre-bid through the same process as normal bidding. You can view your bidding activity on lots in pre-bidding from your Watch List. When you place a pre-bid, if you are notified that your bid is not higher than another user's pre-bid this means that another bidder(s) has already placed a pre-bid equal to or higher the amount of the pre-bid you are attempting to place. You will need to raise your pre-bid if you want to be in the winning position. All pre-bids will be shown when the auction opens for bidding and normal bids can be placed
